HIGHLIGHTS OF THE YEAR

HMC Bike Hub Opening

November 2018 marked the opening of Sheridan's first Bike Hub at HMC! In partnership with Region of Peel, the Office for Sustainability (OfS) geared itself for a stronger active transportation presence on campus. The Bike Hub offers free rentals, a do it yourself (DIY) repair space, and the Pedalwise Mentorship program to encourage Sheridan to ride safely.

4th Tour de Sheridan

The biggest bike event hosted by OfS gets larger every year! All riders travel from each campus to meet at Lake Aquitaine in Mississauga to celebrate the joy of riding. What an exciting time to meet fellow students and colleagues on a ride around the city.

Launched Davis Bike Hub

In the Fall of 2019 we launched the DIY Repair Space for Davis to provide services to teach people how to tune/fix up their bikes. It is a space to learn more about safe riding and grab resources. Free bike rentals will be added in 2020.

Outreach and Community Partnerships

A huge thank you to all the community partners who helped make this happen! This includes Region of Peel, Climate Impact, Sheridan Facilities Management, SSU, City of Mississauga, City of Brampton, & Town of Oakville.

We received initial funding from Region of Peel to begin the two bike hubs in Mississauga and Brampton. The money went towards purchasing bikes, tools, parts, accessories, and items that went into the Bike Hub. Climate Impact granted us money to purchase additional bikes, parts, and accessories for the Davis Bike Hub. There was endless help from Sheridan Facilities Management who provided space, furniture, covered renovation costs, and support for this project.
