MECP WASTE FORM: REPORT OF A WASTE AUDIT (HMC)

Industrial, Commercial and Institutional Establishments As required by O. Reg. 102/94

This report must be prepared 6 months after becoming subject to O. Reg. 102/94 and a copy retained on file for at least five years after it is prepared, and be made available to the ministry upon request.

For large construction and demolition projects, please refer to the forms included with "A Guide to Waste Audits and Waste Reduction Work Plans for Construction and Demolition Projects as Required Under Ontario Regulation 102/94" (revised July 2008).

I. General Information (HMC)

Name of Owner and/or Operator of Entity(ies) and Company Name:									
Sheridan College Institute of Technology and Advanced Learning									
Name of Contact Person:	Telephone #:	Email address:							
Caroline Holmes Caroline.holmes@sheridancoll									
Street Address(es) of Entity(ies):									
HMC Campus of Sheridan College									
Municipality:									
Mississauga, ON Canada									
Type of entity									
Educational Institution									

Note: O. Reg. 102/94 does not apply to multi-unit residential buildings.

II.Description of Entity (HMC)

Provide a brief overview of the entity(ties):

This 2022 waste audit was prepared for the HMC Campus of Sheridan College in August 2023. The campus has three buildings (A, B & C) however building C, which opened in 2022 was excluded from this audit as there is no prior data available for this building. Building C will be included in the 2023 Waste Audit. The two buildings audited in 2022 each comprised of four floors totaling more than 300,000 square feet.

This waste audit was compiled using service data from the campus for the 2022 calendar year.

In 2019 the Zero Waste (ZW) streams (which include mixed recycling, organics and waste-to-landfill) were audited for the purpose of identifying current diversion rates by specific waste category. A 24-hour sample of organics, mixed recycling and waste-to-landfill was sorted and weighed in each of the 8 areas audited. The specific waste material generated and disposed at this campus in the ZW program during 2022 was assumed to be unchanged from the material collected and disposed in 2019 at this same campus. The campus has the same receptacles for ZW collection and there have been no significant changes to materials generation that would impact the composition of the ZW waste streams.

During the calendar year of 2022, the campus had fully implemented a significant number of reduction and diversion programs but, due to operational and service disruptions associated with COVID and staff changes, service data for several programs was not available for inclusion in this 2022 waste audit. Fully Implemented and Quantified Programs:

- 1. ZW Mixed Recycling (includes glass, metal, paper, plastic)
- 2. ZW Organics
- 3. ZW Waste-to-landfill
- 4. Battery Recycling
- 5. Confidential Paper Shred Recycling

- 6. Corrugated Cardboard Recycling
- 7. E-Waste Recycling
- 8. Wood Recycling
- 9. Mission Zero Freeuse Pop-Up Shops: Textile/Clothing, Office Item, Household Item Reuse
- 10. Repair Café: Household Item Reuse (no Events held in 2022)

Fully Implemented Programs but not Quantified in 2022 Report

- 1. Bottle Refill Station: PET Bottle Reduction
- 2. HHW Recycling
- 3. Metal Recycling
- 4. Dropbox Donation: Textile/Clothing Reuse
- 5. PPE Collection
- 6. Writing Instrument Recycling: Office Supplies Recycling
- 7. Hygiene Waste Energy-from-Waste (EFW)

III. How Waste is Produced And Decisions Affecting the Production of Waste (HMC)

For each category of waste that is produced at the	
	he entity(ies), explain how the waste will be produced and how
management decisions and policies will affect th	·
Categories of Waste	How Is the Waste Produced and What Management
	Decisions/Policies Affect Its Production?
#1 PET - clear thermoform packaging	Minimal amounts generated. Food packaging, beverage
	containers and organic waste is available for sale at Campus
	cafeteria and is brought to campus by staff/faculty and
	students. Since COVID there has been a reduction in food
	services across the campus.
#1 PET - other thermoform (coloured)	Minimal amounts generated. Food packaging, beverage
	containers and organic waste is available for sale at Campus
	cafeteria and is brought to campus by staff/faculty and
	students. Since COVID there has been a reduction in food
	services across the campus.
#1 PET Bottles - excluding alcoholic beverage	Food packaging, beverage containers and organic waste is
	available for sale at Campus cafeteria and is brought to campus
	by staff/faculty and students. ZW water bottle refill stations
	installed to reduce PET water bottle generation/disposal. Since
	COVID there has been a reduction in food services across the
	campus.
#2 HDPE Bottles and Jugs	Food packaging, beverage containers and organic waste is
	available for sale at Campus cafeteria and is brought to campus
	by staff/faculty and students. Since COVID there has been a
	reduction in food services across the campus.
#2 Other HDPE Containers	Minimal amounts generated on campus
#5 Other PP Containers	Food packaging, beverage containers and organic waste is
	available for sale at Campus cafeteria and is brought to campus
	by staff/faculty and students. Since COVID there has been a
	reduction in food services across the campus.
#6 PS - Expanded polystyrene	Food packaging, beverage containers and organic waste is
no 13 Expanded polystyrene	available for sale at Campus cafeteria and is brought to campus
	by staff/faculty and students. Since COVID there has been a
	reduction in food services across the campus.

· · · · · · · · · · · · · · · · · · ·	Kraft Paper	
	•	generated in printing and photocopying areas. College has

	reduced paper generation through double-sided
	printing/copying though this is not quantified.
Laminated Paper Packaging	Minimal amounts generated on campus
Large HDPE & PP Pails & Lids	Minimal amounts generated on campus.
LDPE/HDPE Film - Products (non-packaging)	Generated and disposed as waste and contaminating recycling on campus.
Liquids - food/beverage	Beverages are available for sale at Campus cafeteria and are brought to campus by staff/faculty and students. Some staff/students/visitors improperly dispose of unemptied beverage containers in ZW Recycling and ZW Waste to Landfill. Beverage containers must be emptied prior to disposal in ZW recycling.
Maintenance Waste	Minimal amounts generated on campus.
Metal - Bulk	Generated in receiving and maintenance areas. Captured by bulk metal recycling program though the 2022 program weight was not available for inclusion in this report.
Mixed Fine Paper	Paper products generated through campus activities. Most generated in printing and photocopying areas. College has reduced paper generation through double-sided printing/copying though this is not quantified.
Molded Pulp/Fibre	Food packaging, beverage containers and organic waste is available for sale at Campus cafeteria and is brought to campus by staff/faculty and students. Since COVID there has been a reduction in food services across the campus.
Napkins/Toweling (food related)	Food packaging, beverage containers and organic waste is available for sale at Campus cafeteria and is brought to campus by staff/faculty and students
Newspaper – Dailys and Weeklys	Minimal amounts generated on campus.
Office Supplies	Generated in offices and classrooms around campus. Disposed as waste though some captured in the Mission Zero Freeuse Pop-Up Shop reuse program. Used writing instruments also collected for a recycling program though this diversion program has not been quantified for inclusion in this report.
Other Metal	Minimal amounts generated on campus and suitable for inclusion in ZW recycling program.
Other Non-Recyclable Material	Minimal amounts generated on campus.
Other Paper	Minimal amounts generated on campus
Paper Straws	Minimal amounts generated on campus. Should be included in ZW organics program.
Parchment Paper	Generated in kitchen areas of campus and is not suitable for recycling. Some found in recycling is contributing to contaminated loads.
Polycoat Beverage Cups - suitable for ZW Organics	Due to service changes since the baseline audit, no polycoat beverage cups were acceptable for inclusion in the ZW Organics program on campus.
Polycoat Beverage Cups – excluded from ZW Organics	Beverages served in polycoat cups (hot and cold) are available for sale at Campus cafeteria and are brought to campus by

	staff/faculty and students. Since COVID there has been a
	reduction in food services across the campus
Post Consumer Food Waste	Food packaging, beverage containers and organic waste is
	available for sale at Campus cafeteria and is brought to campus
	by staff/faculty and students. Since COVID there has been a
	reduction in food services across the campus.
Rubber & Nitrile Gloves	Generated in cafeterias across campus. This is waste and not
	suitable for recycling.
Spiral Wound Containers	Minimal amounts generated on campus.
Steel Food & Other Beverage Cans	Food packaging, beverage containers and organic waste is
	available for sale at Campus cafeteria and is brought to campus
	by staff/faculty and students. Since COVID there has been a
	reduction in food services across the campus.
Straws/Plastic Cutlery	Generated in cafeterias across campus. Suitable for inclusion in
	the ZW recycling program. Program to comply with Federal
	single-use plastic regulation is being rolled out.
Tissue/Toweling (cleaning related)	Minimal amounts generated on campus.
Tissue/Toweling (washroom related)	Generated and disposed as waste in Residence. Have been
	removed from most washrooms though some were re-installed
	during COVID. Should be disposed in ZW organics program.
Wood	Generated in receiving area through delivery. Captured in bulk
	recycling program.
Wood Dust	Not generated on campus.
New 2022 Books	Minimal amounts disposed in 2022 at this campus though this is
	an acceptable material for inclusion in the Mission Zero Freeuse
	Pop-Up Shop initiative for share/reuse. Staff and students are
	also encouraged to bring books from home for reuse through
	the Mission Zero Freeuse Pop-Up Shop program.
New 2022 Small Household Items	Minimal amounts of small household items generated by
	students around campus, particularly in residences (e.g., décor
	items, kitchenware, desk supplies). Most are shared or reused
	through the Mission Zero Freeuse Pop-Up Shop initiative rather
	than disposed as waste to landfill. Staff and students are also
	encouraged to bring small household items from home for
	reuse through the Mission Zero Freeuse Pop-Up Shop program.
Note: When completing this form, write "n/	a" in the columns where the entity will not produce any waste for a

Note: When completing this form, write "n/a" in the columns where the entity will not produce any waste for a category of waste.

IV. Management of Waste (HMC)

For each category of waste listed be how each item will be managed at t		rill be disposed or reused/recycled and
Category	Waste to be Disposed	Reused or Recycled Waste
#1 PET - clear thermoform	Waste to be Disposed	Should be included in ZW Recycling
packaging		Bin Program though some may end
- packaging		up in landfill.
#1 PET - other thermoform		Should be included in ZW Recycling
(coloured)		Bin Program though some may end
,		up in landfill.
#1 PET Bottles - excluding		Should be included in ZW Recycling
alcoholic beverage		Bin Program though some may end
		up in landfill. Reduction in PET water
		bottles through installation of
		reusable water bottle filling stations.
#2 HDPE Bottles and Jugs		Should be included in ZW Recycling
		Bin Program though some may end
		up in landfill.
#2 Other HDPE Containers		Should be included in ZW Recycling
		Bin Program though some may end
		up in landfill.
#5 Other PP Containers		Should be included in ZW Recycling
		Bin Program though some may end
		up in landfill.
#6 PS - Expanded polystyrene	Generated across campus. No	
	diversion program currently	
HC DC Non-considered all others	available.	Charled by Sankada dia 704/ Parasalian
#6 PS - Non-expanded - all other		Should be included in ZW Recycling
		Bin Program though some may end up in landfill.
#7 Other Plastics		Should be included in ZW Recycling
#7 Other Flastics		Bin Program though some may end
		up in landfill.
Aluminum beverage - alcohol		Alcohol is not available for sale on
Admindm beverage alcohol		campus. Alcoholic beverage
		containers brought to campus by
		students, visitors and others. Should
		be included in ZW Recycling Bin
		Program though some may end up in
		landfill.
Aluminum Foil & Foil Trays		Should be included in ZW Recycling
,		Bin Program though some may end
		up in landfill.
Aluminum Food & Other Beverage		Should be included in ZW Recycling
Cans		Bin Program though some may end
		up in landfill.

Acontic Containors (avaluding		Chauld be included in 7M/ Decycling
Aseptic Containers - (excluding		Should be included in ZW Recycling
alcoholic beverages)		Bin Program though some may end
		up in landfill.
Batteries		Should be included in Battery
		Recycling or captured during E-
		Recycling Events.
Boxboard / Cores		Should be included in ZW Recycling
		Bin Program though some may end
		up in landfill.
Clear Glass Other Beverage and		Should be included in ZW Recycling
Food		Bin Program though some may end
		up in landfill.
Clothing/Textiles		Effectively reused through Mission
		Zero Freeuse Pop Up shops and
		Donation Bins.
Coffee Grinds		Effectively captured in ZW Organics
		Bin Program.
Coffee pods	Minimal amounts generated.	-0 -
Confidential Paper - Paper Shred	The second secon	Well captured in paper shred
Comidential Paper - Paper Silled		
		recycling.
Corrugated Cardboard - Bulk		Well captured in OCC bulk recycling
		program.
Corrugated Cardboard - Loose		Should be included in ZW Recycling
		Bins throughout the campus, though
		some may end up in landfill.
Diapers	Small quantities generated on	
	campus and disposed as waste.	
Electronics		Well captured in E-Recycling
		program.
Feminine Hygiene Products	Generated across campus in	1, 20 2
Terrimine Hygrenie i Toddots	washrooms. Material collected	
	for diversion from landfill.	
	Material is sent to Energy-from-	
	Waste facility. Service weights	
	not available for inclusion in this	
	report.	
Food packaging	Generated across campus (with	
	the exception of Animal Care)	
	and no diversion program	
	currently available.	
Furniture & Bulky Items		Assessed and, whenever possible,
•		given to charity for donation/reuse.
		No quantified donation/reuse or
		disposal for 2022 was available for
		inclusion in this report.
Cable Ten Centainers	+	Should be included in ZW Recycling
Gable Top Containers		
		Bin Program though some may end
		up in landfill.

Glass - Clear Other Beverage and		Should be included in ZW Recycling
Food		Bin Program though some may end
Food		
		up in landfill.
Glass - Clear Alcoholic Beverage		Alcohol is not available for sale on
		campus. Alcoholic beverage
		containers brought to campus by
		students, visitors and others. Should
		be included in ZW Recycling Bin
		Program though some may end up in
		landfill.
Kraft Paper		Should be included in ZW Recycling
		Bin Program though some may end
		up in landfill.
Laminated Paper Packaging	Little generated and no diversion	
	program currently available.	
Large HDPE & PP Pails & Lids		Little generated and should be
		included in ZW Recycling Bin
		Program.
LDPE/HDPE Film - Products (non-	Little generated and no diversion	
packaging)	program currently available.	
Liquids - food/beverage		Should be eliminated from disposal
		through emptying of beverage
		containers (consumption or
		drainage) prior to disposing
		container in ZW Recycling
Maintenance Waste	No diversion program currently	.,, ,
	available.	
Metal - Bulk		Generated in receiving and
		maintenance areas. Well captured
		by bulk metal recycling program
		though service weights for 2022
		were not available for inclusion in
		this report.
Mixed Fine Paper		Generation reduced through double-
ivince i inc i aper		sided printing and copying. Should
		be included in ZW Recycling Bin
		Program though some may end up in
		landfill.
Moldod Buln/Fibro		Should be included in ZW Organics
Molded Pulp/Fibre		
		or Recycling Bin Program though
Negline/Terreline/C		some may end up in landfill.
Napkins/Toweling (food related)		Should be included in ZW Organics
		Bin Program though much ends up in
		landfill.
Newspaper – Dailys and Weeklys		On-line news services has reduced
		newspaper generation to near zero
		at this campus. Material suitable for
1		ZW Recycling.

Office Supplies	Some materials at end-of-life not	Writing instrument recycling
Office Supplies		program and Mission Zero Freeuse
	suitable for reuse/donation or	Pop-Up Shops effectively reducing
	recycling will be disposed in ZW landfill bins.	
OIL MAIL	landfill bins.	disposal through reuse and recycling.
Other Metal		Little generated and should be
		included in ZW Recycling Bin
		Program though some may end up in
		landfill.
Other Non-Recyclable Material	Little generated and no diversion	
	program currently available.	
Other Paper		Little generated and should be
		included in ZW Recycling Bin
		Program.
Paper Straws		Little generated and should be
		included in ZW Organics Bin
		Program.
Parchment Paper	No diversion program currently	
	available.	
Polycoat Beverage Cups - suitable		No polycoat cups are currently
for ZW Organics		accepted for ZW Organics disposal.
		Polycoat beverage cups are waste.
Polycoat Beverage Cups –	Polycoat beverage cups are	
excluded from ZW Organics	waste for which there is	
	currently no available diversion	
	program.	
Post Consumer Food Waste		Should be included in ZW Organics
		Bin Program though much ends up in
		landfill or contaminating recycling.
Rubber & Nitrile Gloves	No diversion program currently	
	available for this waste.	
Spiral Wound Containers	Little generated and no diversion	
	program currently available.	
Steel Food & Other Beverage Cans		Should be included in ZW Recycling
		Bin Program though some may end
		up in landfill.
Straws/Plastic Cutlery		Should be included in ZW Recycling
·		Bin Program though some may end
		up in landfill. New program to
		comply with Federal single-use
		plastics will likely result in at source
		reduction.
Tissue/Toweling (cleaning related)	Little generated. Should be	
	included in waste-to-landfill.	
Tissue/Toweling (washroom		Little generated on campus. Should
related)		be included in ZW organics program.
Wood		Is captured by wood recycling
		program in deliveries though some is
		misdirected and disposed as waste.
	1	modificated and disposed as waste.

Wood Dust	None generated at this campus.
New 2022 Books	Should be reused through sharing programs including the Mission Zero
	Freeuse Pop-Up Shops.
New 2022 Small Household	Should be reused through sharing
Items	programs including the Mission Zero
	Freeuse Po-Up Shops.

Note: When completing this form, write "n/a" in the "Estimated Amount of Waste Produced" column where the entity will not produce any waste for a category of waste.

• Fill out these columns each year following the initial waste audit or baseline year to determine the progress that is being made by your waste reduction program.

VI. Extent to Which Materials or Products Used Or Sold By the Entity Consist of Recycled or Reused Materials or Products (HMC)

Please	ease answer the following questions (and please attach any additional page(s) as required):								
1.	Do you have a management policy in products that consist of recycled and/	place that promotes the purchasin	g and/or use of materials or						
	Sheridan's Sustainability Policy outline Step as follows: "We must eliminate o natural processes (e.g. overharvesting	ur contributions to the systematic	physical degradation of nature and						
	In the Request of Proposal documents, the contractors are required to outline how they demonstrate sustainability in their project proposals.								
2.	Do you have plans to increase the extent to which materials or products used or sold* consist of recycled or reused materials or products? If yes, please describe. * Information regarding materials or products "sold" that consist of recycled or reused materials or products is only required from owner(s) of retail shopping establishments and the owner(s) or operator(s) of large manufacturing establishments.								
	It is in Sheridan College's long-term pla	an.							
I he	I hereby certify that the information provided in this Report of Waste Audit is complete and correct.

MECP WASTE FORM: REPORT OF A WASTE REDUCTION WORK PLAN (HMC)

Industrial, Commercial and Institutional Establishments As required by O. Reg. 102/94

This report must be prepared 6 months after becoming subject to O. Reg. 102/94 and a copy retained on file for at least five years after it is prepared, and be made available to the ministry upon request.

I. General Information (HMC)

Name of Owner and/or Operator of Entity(ies) and Company Name:							
Sheridan College Institute of Technology and Advanced Learning							
Name of Contact Person:	Telephone #:	Email address:					
Caroline Holmes		Caroline.holmes@sheridancollege.ca					
Street Address(es) of Entity(ies):							
HMC Campus of Sheridan College							
Municipality:							
Mississauga, ON Canada							
Type of entity							
Educational Institution							

Note: O. Reg. 102/94 does not apply to multi-unit residential buildings.

II.Description of Entity (HMC)

Provide a brief overview of the entity(ties):

This 2022 waste reduction workplan was prepared for the HMC Campus of Sheridan College in August 2023. The campus has three buildings (A, B & C) however building C, which opened in 2022 was excluded from this audit as there is no prior data available for this building. Building C will be included in the 2023 Waste Audit. The two buildings audited in 2022 each comprised of four floors totaling more than 300,000 square feet.

This waste reduction workplan and waste audit was compiled using service data from the campus for the 2022 calendar year.

In 2019 the Zero Waste (ZW) streams (which include mixed recycling, organics and waste-to-landfill) were audited for the purpose of identifying current diversion rates by specific waste category. A 24-hour sample of organics, mixed recycling and waste-to-landfill was sorted and weighed in each of the 8 areas audited. The specific waste material generated and disposed at this campus in the ZW program during 2022 was assumed to be unchanged from the material collected and disposed in 2019 at this same campus. The campus has the same receptacles for ZW collection and there have been no significant changes to materials generation that would impact the composition of the ZW waste streams.

During the calendar year of 2022, the campus had fully implemented a significant number of reduction and diversion programs but, due to operational and service disruptions associated with COVID and staff changes, service data for several programs was not available for inclusion in this 2022 waste audit.

Fully Implemented and Quantified Programs:

- 1. ZW Mixed Recycling (includes glass, metal, paper, plastic)
- 2. ZW Organics
- 3. ZW Waste-to-landfill
- 4. Battery Recycling

- 5. Confidential Paper Shred Recycling
- 6. Corrugated Cardboard Recycling
- 7. E-Waste Recycling
- 8. Wood Recycling
- 9. Mission Zero Freeuse Pop-Up Shops: Textile/Clothing, Office Item, Household Item Reuse
- 10. Repair Café: Household Item Reuse (no events held in 2022)

Fully Implemented Programs but not Quantified in 2022 Report

- 1. Bottle Refill Station: PET Bottle Reduction
- 2. HHW Recycling
- 3. Metal Recycling
- 4. Dropbox Donation: Textile/Clothing Reuse
- 5. PPE Collection
- 6. Writing Instrument Recycling: Office Supplies Recycling
- 7. Hygiene Waste Energy-from-Waste (EFW)

III. Plans to Reduce, Reuse and Recycle Waste (HMC)

For each category of w	vaste described in Part V of "Report of a Waste Audit" (on which this plan is based),
explain what your plar	ns are to Reduce, Reuse and Recycle the waste, including: 1) how the waste will be
source separated at th	ne establishment, and 2) the programs to reduce, reuse and recycle all source separated
waste.	
#1 PET - clear	Staff/students will be encouraged to include material in the ZW mixed recycling bin
thermoform	through education/signage.

Beverage and Food Clothing/Textiles Coffee Grinds Coffee pods Confidential Paper - Paper Shred Corrugated	through education/signage. Staff/students will be encouraged to include material in the ZW mixed recycling bin through education/signage. Mission Zero Freeuse Pop-Up Shops will encourage the sharing/reuse of clothing/textiles. Little generated. Little generated. Should be disposed in ZW waste-to-landfill. Well captured in recycling program. No action required.

Diapers	Little generated.
Electronics	Well captured through E-recycling.
Feminine Hygiene	Accurately quantify hygiene waste generation/disposal. Research diversion options
Products	that are higher use than incineration.
Food packaging	This waste has no diversion program currently available. Encourage reduction in food
	packaging wherever possible.
Furniture & Bulky	Accurately quantify furniture & bulky item generation/disposal. Research
Items	reuse/donation options wherever possible.
Gable Top	Staff/students will be encouraged to include material in the ZW mixed recycling bin
Containers	through education/signage.
Glass - Clear Other	Staff/students will be encouraged to include material in the ZW mixed recycling bin
Beverage and Food	through education/signage.
Glass - Clear	Staff/students will be encouraged to include material in the ZW mixed recycling bin
Alcoholic Beverage	through education/signage.
Kraft Paper	Staff/students will be encouraged to include material in the ZW mixed recycling bin
	through education/signage.
Laminated Paper	Little generated.
Packaging	
Large HDPE & PP	Little generated. Staff/students will be encouraged to include material in the ZW
Pails & Lids	mixed recycling bin through education/signage.
LDPE/HDPE Film -	Staff/students will be encouraged to include material in the ZW waste-to-landfill bin
Products (non-	through education/signage.
packaging)	
Liquids -	Staff/students will be encouraged to empty then recycle containers
food/beverage	education/signage.
Maintenance Waste	This waste has no diversion program currently available.
Metal - Bulk	Most captured through bulk metal recycling program though material weights were not available for inclusion in this 2022 report.
Mixed Fine Paper	Staff/students will be encouraged to include material in the ZW mixed recycling bin
iviixed Fille Fapei	through education/signage.
Molded Pulp/Fibre	Staff/students will be encouraged to include material in the ZW organics or mixed
wiolded Fulp/Fibre	recycling bin through education/signage.
Napkins/Toweling	Staff/students will be encouraged to include material in the ZW organics bin through
(food related)	education/signage.
Newspaper – Dailys	Staff/students will be encouraged to include material in the ZW mixed recycling bin
and Weeklys	through education/signage.
Office Supplies	Little disposed and significant amounts is captured for reuse through Mission Zero
omee supplies	Freeuse Pop-Up shops.
Other Metal	Little generated. Staff/students will be encouraged to include material in the ZW
other metal	mixed recycling bin through education/signage.
Other Non-	Little generated.
Recyclable Material	
Other Paper	Little generated. Suitable for ZW mixed recycling.
Paper Straws	Little generated. Suitable for ZW organics recovery.
	Staff/students will be encouraged to include material in the ZW waste-to-landfill bin
Parchment Paper	through education/signage.
Polycoat Beverage	No polycoat cups are currently accepted for ZW Organics disposal. Polycoat beverage
Cups - suitable for	cups are waste.
ZW Organics	

Polycoat Beverage	Polycoat beverage cups are waste for which there is currently no available diversion
Cups – excluded	program.
from ZW Organics	
Post Consumer Food	Staff/students will be encouraged to include material in the ZW organics bin through
Waste	education/signage.
Rubber & Nitrile	Rubber and nitrile gloves are waste for which there is currently no available diversion
Gloves	program.
Spiral Wound	Little generated.
Containers	
Steel Food & Other	Staff/students will be encouraged to include material in the ZW mixed recycling bin
Beverage Cans	through education/signage.
Straws/Plastic	Staff/students will be encouraged to include material in the ZW mixed recycling bin
Cutlery	through education/signage. Material will soon be eliminated in accordance with the
	Federal single-use plastics regulation. The substituted material type will be suitable for
	the ZW organics program. This change must be clearly communicated through
	education and signage across the Campus.
Tissue/Toweling	Little generated.
(cleaning related)	
Tissue/Toweling	Staff/students will be encouraged to include material in the ZW organics bin through
(washroom related)	education/signage.
Wood	Most captured through wood recycling program though some being disposed in
	landfill.
Wood Dust	None generated at this campus.
New 2022 Books	Little generated for disposal at this campus though suitable for reuse through Mission
	Zero Freeuse Pop-Up Shops.
New 2022 Small	Little generated for disposal at this campus though suitable for reuse through Mission
Household Items	Zero Freeuse Pop-Up Shops.

IV. Responsibility for Implementing The Waste Reduction Work Plan (HMC)

Identify who is responsible for implementing the Waste Reduction Work Plan at your entity(ies). If more than one person is responsible for implementation, identify each person who is responsible and indicate the part of the Waste Reduction Work Plan that each person is responsible for implementing.

implementing the Zero Waste program, tracking and assessing of data and evaluating the program. Caroline Holmes Developing and evaluating the Zero Waste program Caroline.holmes@sheridand.	Name of Person	Responsibility Telephone #/Email	
Zero Waste program	Dave Clark	implementing the Zero Waste program, tracking and assessing of	;e.ca
Herb Sinnock Developing and evaluating the Herbert.sinnock@sheridang	Caroline Holmes		ollege.ca
Zero Waste program	Herb Sinnock	Developing and evaluating the Zero Waste program Herbert.sinnock@sheridanc	ollege.ca

V. Timetable for Implementing Waste Reduction Work Plan (HMC)

Provide a timetable indicat	ing when each Source Separation and 3Rs program of the Waste Reduction Work				
Plan will be implemented. Source Separation and					
3Rs Program	Schedule for Completion				
1. Capturing & Reporting Material Weights for All Diversion Programs at the Campus	Capturing & Reporting Material Weights for All Diversion Programs at the Campus: Sheridan has made significant progress in reporting material diversion streams since 2015 however there are diversion programs in place at the HMC Campus but the weight-based data is not currently captured accurately for reporting purposes (e.g. metal recycling). Sheridan should continue to conduct an inventory of all diversion programs, with particular focus on reduction and reuse programs, and should ensure there are procedures in place to collect, monitor and report on these programs.				
	Anticipated reduction in waste-to-landfill: Effect on diversion rate significant but not quantifiable.				
	Due date: December 31, 2023				
	NOTE: COVID impacted the diversion programs across the campus and interrupted service material tracking systems making some diversion program service weights, such as scrap metal, unavailable for inclusion in this audit.				
2. Launch a "Take the Time to Sort" Campaign to Improve Capture Rates and Reduce Contamination in ZW Program	Launching a "Take the Time to Sort" campaign: Educate students to take the time to sort materials. Note that ZW recycling and organics loads were not so contaminated as to become waste in 2022 unlike at Davis and Trafalgar campus so the focus at HMC is to get the recycling and organics out of the ZW waste to landfill receptacles.				
	 The program components to improve sorting should highlight the following: Encourage the emptying of food waste and napkins in the organics bin, then the disposal of the food packaging in the appropriate ZW mixed recycling or ZW waste-to-landfill bin Emptying of beverage containers prior to placement in ZW mixed recycling 				
	Assume 10% improvement in organics and recycling capture rates resulting in a further recovery of 906 kg/year. Assume 10% reduction in liquids being disposed in un-empty beverage containers for a further 354 kg/year reduction.				
	Anticipated reduction in waste-to-landfill: 2,280 kg/year				
	Due date: December 31, 2023				
	NOTE: The ZW Diversion rate dropped from 64.0% to 32.1% from 2018 largely through a drop in diverted organics which in turn is likely a result of a significant reduction in organics generation on the campus due to the impacts of COVID on food services and student, staff & visitor behaviours.				

3. Promote Mission Zero Freeuse Pop-Up Shops	Promote Mission Zero Freeuse Pop-Up Shops: Increase the uptake in the reuse of small household items, office supplies and textiles/clothing. Assume 10% increase in participation (by weight of material collected). Anticipated reduction in waste-to-landfill: 351 kg/year Due date: December 31, 2023
4. Eliminate Single-Use Plastics including Straws and Cutlery	Single-Use Plastic Strategy: In accordance with the Federal regulations impacting single-use plastics, plastic straws and plastic cutlery will no longer be generated at Sheridan College campuses. Assume 100% of these items are compostable and acceptable in the ZW organics program. Also assume capture rate for this material in the ZW program will likely remain unchanged for the first year. Recommendation: there should be a significant educational component (visual at ZW stations and in posters, newsletters, etc) to alert staff and students to this change as it is a 100% recyclable stream that, if all material is captured, could reduce waste to landfill by upwards of 600 kg/year. Anticipated reduction in waste-to-landfill: minimal in 2023
5. Monitor Disposal of Washroom Paper Toweling	Washroom Paper Towel Reduction & Recovery Monitoring: Analyze washroom paper towel disposal in the 2023 waste audit at all campuses to determine what strategies might need to be taken. Since the data employed in this 2022 audit was from a material sort pre-COVID it is preliminary to create a workplan for this material at this time.

VI. Communication to Staff, Customers, Guests and Visitors (HMC)

Explain how the Waste Reduction Work Plan will be communicated to employees, customers, tenants, guests/visitors and students:

The Waste Reduction Plan will be posted on the Sheridan Sustainability website. Comprehensive strategies will be adopted in promoting the Zero Waste program, including communication through channels such as the weekly e-newsletter Insider, Sustainability website, campus TV screens, campus newspaper, Sheridan social media and the Zero Waste promotion booths across all campuses. These media as well as promotional material and additional signage will be employed, where practicable, to promote the implementation of each of the individual waste reduction work plans.

VII. Estimated Waste Produced By Material Type And The Projected Amount (HMC)

II. Estimated Wa	ste Produced	By Material Ty	pe And The Projected Am	ount (HMC)		
	Estimated Annual Waste Produced * (kg)	Annual Amount Currently Diverted (2022) (kg)	Name of Proposed 3Rs Program (as stated in Part III)	-	ns to Further Reduce, Recycle Waste		Estimated Annual Amount to be Diverted ** (%)
				Reduce	Re-use	Recycle	(, -)
#1 PET - clear thermoform packaging	40	3	Enhance capture rate for specific recyclables in ZW mixed recycling across the Campus through education and signage.			4	17.06%
#1 PET - other thermoform (coloured)	6	2	Enhance capture rate for specific recyclables in ZW mixed recycling across the Campus through education and signage.			0	36.37%
#1 PET Bottles - excluding alcoholic beverage	552	289	Enhance capture rate for specific recyclables in ZW mixed recycling across the Campus through education and signage.			26	57.07%
#2 HDPE Bottles and Jugs	133	61	Enhance capture rate for specific recyclables in ZW mixed recycling across the Campus through education and signage.			7	51.30%
#2 Other HDPE Containers	0	0					
#5 Other PP Containers	1,251	300	Enhance capture rate for specific recyclables in ZW mixed recycling across the Campus through education and signage.			95	31.61%
#6 PS - Expanded polystyrene	46	31	Reduce contamination caused by placing this waste in recycling.				
#6 PS - Non- expanded - all other	323	255	Enhance capture rate for specific recyclables in ZW mixed recycling			7	80.98%

			across the Campus through education and signage.		
#7 Other Plastics	0	0			
Aluminum beverage - alcohol	12	0	Enhance capture rate for specific recyclables in ZW mixed recycling across the Campus through education and signage.	1	10.00%
Aluminum Foil & Foil Trays	20	10	Enhance capture rate for specific recyclables in ZW mixed recycling across the Campus through education and signage.	1	55.43%
Aluminum Food & Other Beverage Cans	59	54	Enhance capture rate for specific recyclables in ZW mixed recycling across the Campus through education and signage.	1	92.02%
Aseptic Containers - (excluding alcoholic beverages)	89	46	Enhance capture rate for specific recyclables in ZW mixed recycling across the Campus through education and signage.	4	56.53%
Batteries	22	22			100.00%
Boxboard / Cores	1,035	332	Enhance capture rate for specific recyclables in ZW mixed recycling across the Campus through education and signage.	70	38.87%
Clear Glass Other Beverage and Food	0	0			
Clothing/Text iles	60	60			100.00%
Coffee Grinds	324	324			100.00%
Coffee pods	0	0			
Confidential Paper - Paper Shred	4,876	4,876			100.00%

Corrugated Cardboard - Bulk	0	0			
Corrugated Cardboard - Loose	2,325	2,325			100.00%
Diapers	0	0			
Electronics	1,895	1,895			100.00%
Feminine Hygiene Products	0	0	Capture and report the service weights for this material diversion stream for inclusion. Reduce contamination of recycling by improper disposal of this waste in recycling.		
Food packaging	1,601	273	Reduce contamination caused by placing this waste in recycling.		
Furniture & Bulky Items	0	0	Capture and report the service weights for furniture and bulky item disposal and diversion programs at the campus.		
Gable Top Containers	142	54	Enhance capture rate for specific recyclables in ZW mixed recycling across the Campus through education and signage.	9	44.45%
Glass - Clear Other Beverage and Food	83	83			100.00%
Glass - Clear Alcoholic Beverage	0	0			
Kraft Paper	769	133	Enhance capture rate for specific recyclables in ZW mixed recycling across the Campus through education and signage.	64	25.53%
Laminated Paper Packaging	0	0			

Large HDPE & PP Pails & Lids	70	70					100.00%
LDPE/HDPE Film - Products (non- packaging)	742	93	Reduce contamination caused by placing this waste in recycling.				
Liquids - food/beverag e	3,540	295	Promote the emptying of beverage containers prior to placement in ZW mixed recycling (additional recovery included in "Reduce Contaminated Loads" at end of table)	354			
Maintenance Waste	622	52	Reduce contamination caused by placing this waste in recycling.				
Metal - Bulk	0	0	Capture and report the service weights for scrap metal for inclusion.				
Mixed Fine Paper	1,821	1,302	Enhance capture rate for specific recyclables in ZW mixed recycling across the Campus through education and signage.			52	74.35%
Molded Pulp/Fibre	172	74	Enhance capture rate for specific recyclables in ZW mixed recycling across the Campus through education and signage.			10	48.76%
Napkins/Tow eling (food related)	1,778	188	Enhance capture rate for this specific organic waste ZW receptacles across the Campus through education and signage.			159	19.49%
Newspaper – Dailys and Weeklys	0	0					
Office Supplies	3,744	258	Improving Capture Rates for Office Supplies through promotion of MZ Freeuse Pop Up Shops		349		16.19%

Other Metal	0	0				
Other Non- Recyclable Material (Laundry)	0	0				
Other Paper (paper plates)	0	0				
Paper Straws	0	0				
Parchment Paper	418	28	Reduce contamination caused by placing this waste in recycling.			
Polycoat Beverage Cups - suitable ZW organics	1	1	Reduce contamination caused by placing this waste in recycling.			
Polycoat Beverage Cups – excluded from ZW organics	2,433	627	Reduce contamination caused by placing this waste in recycling.			
Post Consumer Food Waste	8,718	4,763	Enhancing capture rate for organics throughout the Campus.		396	59.17%
Rubber & Nitrile Gloves	707	8	Reduce contamination caused by placing this waste in recycling.			
Spiral Wound Containers	0	0				
Steel Food & Other Beverage Cans	112	112				100.00%
Straws/Plastic Cutlery	474	25	Material will be eliminated in accordance with Federal single-use plastics regulation. Likely replaced by compostable alternatives suitable for ZW Organics. Assume 10% increase in capture rate in organics program over 2022 with potential for	2		5.72%
