

ANNUAL REPORT 2023

Highlights of the Year

Staffing

From spring to fall, we hired the first Bike Hub Assistant to support the two shops. Sanket learned how to manage the shops, rent bikes out, maintain our bike fleet, and support participants on basic bike repairs. Thank you, Sanket for all your hard work and providing excellent customer service to our participants!

Service Changes

With the lack of external funding to support the Bike Hubs this year, we have begun implementing a small fee for our rental and repair services. The funds generated from these services go back into purchasing tools and parts to continue bike repairs and support our events.

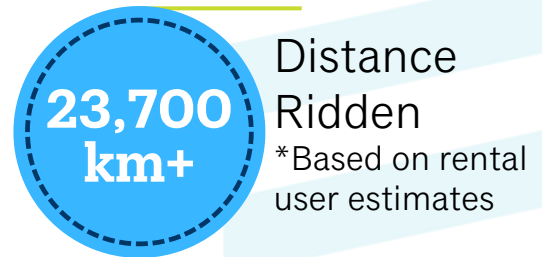

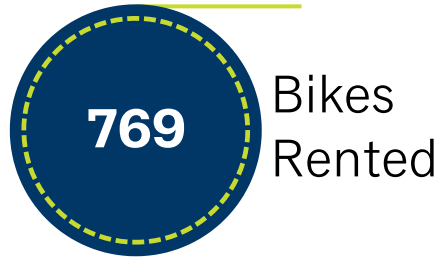

Trafalgar Repair Pop-Up

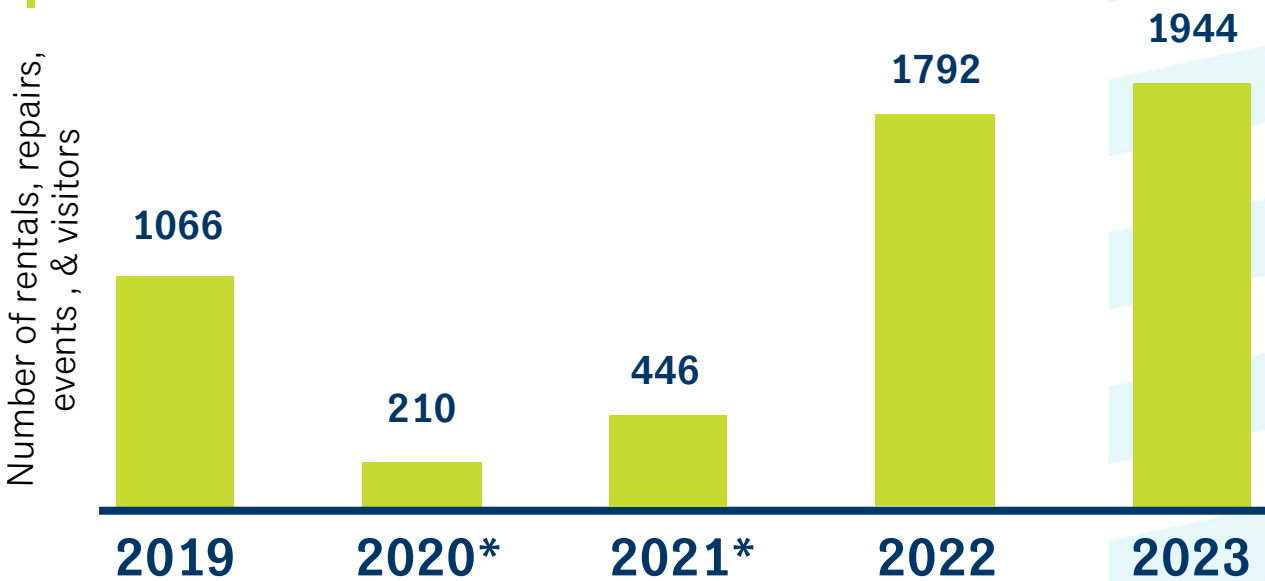

We had dedicated volunteers from the Trafalgar campus who received training at the HMC Bike Hub. Their passion ignited the first two Trafalgar pop-ups and a student led Trafalgar Bike Club to explore the town and ride together. Way to offer additional support to the Trafalgar campus!
